**【First part and introduction】**

Welcome to use this software and services!

In order to use the software and services, you should read and abide by this Privacy Policy. Please be sure to read carefully, fully understand the terms and conditions, and choose to accept or not. You have no right to download, install or use this software and related services unless you have read and accepted all the terms of this agreement. Your download, installation, use and other behaviors are deemed that you have read and agreed to be bound by the above agreement.

**【Information we may collect】**

When we provide services, we may collect, store and use the following information about you. If you do not provide relevant information, you may not be able to register as our user or enjoy some of the services we provide, or you may not be able to achieve the intended effect of the relevant services.

We collect data based on your interactions with us and the choices you make, including your privacy settings and the products and features you use. The data we collect may include browser, internet service provider, IP address, timestamp, app identifier, app version, MAC address, International Mobile Equipment Identity (IMEI), device model, language location, etc.

In order to ensure that users can normally use specific face recognition functions (including but not limited to comic face, time machine, motion photos), when users agree to authorize us to access the camera or album, we will collect facial features data in mobile phone photos:

1. Only when the user authorizes us to access the album or camera to obtain the mug shot in the device and select or take the photo to upload, we will collect the face information of the picture.
2. After the user uploads the photo, we will use our own technology -- deep learning to process the facial feature data in the photo, analyze the information on the photo, automatically capture the position and shape of the facial features in the photo, and feedback the effect drawing to the user.
3. After the user makes the effect drawing, the picture will only be kept in the APP and system album, and the user can choose to delete the saved effect drawing.
4. After the user deletes the APP, the renderings saved in the APP will also be deleted.
